## ROOSEVELT OFFERS TO ACT AS MEDIATOR

It is Understood Arbitration is Suggested  
---Situation is Chaotic at Present.

Portsmouth, N. H., Aug. 21.—Count Witte in a verbal statement this afternoon, announced that President Roosevelt had in a talk with Baron Rosen, extended his good offices in the interest of peace between Russia and Japan.

President Proposed Arbitration.  
Portsmouth, N. H., Aug. 21.—The Associated Press is able to announce that the feature of the proposition President Roosevelt communicated through Baron Rosen to Witte and transmitted by the latter to Emperor Nicholas is based upon the principle of arbitration.

Whether the proposal contemplates arbitration upon all articles upon which the plenipotentiaries have failed to agree or only upon the question of indemnity cannot be stated with positiveness, but it is more than probable that it relates to indemnity and the cession of the island of Sakhalin. Neither is it possible to say whether the president has yet made a similar proposition to Japan.

The customary diplomatic proceedings in such cases would be to submit the proposal simultaneously to both countries but there might be an advantage in securing the adherence of one before submitting it to the other. To Emperor Nicholas, the author of the Hague Peace Conference, the suggestion of arbitration, which will necessarily immediately command the sympathy of the public opinion of the world will be particularly hard to reject. If he agrees, Japan, if it has not already done so, will be all the more bound to submit the claim to the decision of an impartial arbitrator.

Acceptance by both sides would involve a great extension of the principle of arbitration as nations have heretofore declined to arbitrate questions involving their "honor and dignity."

Both Takahira and Witte in the earlier stages of the conference absolutely rejected the idea of arbitration and only Saturday both reiterated their disbelief in such solution. It was noticed however that Witte's opinion was not expressed as strongly as last week.

### Seized Russian Transport.

Tokyo, Aug. 21.—The commander of the squadron sent to Kametaka reports he seized the Russian transport Australia in Petropavlovsk harbor August 13.

### Pin Their Faith to Roosevelt.

St. Petersburg, Aug. 21.—The attitude assumed by President Roosevelt in the peace proceedings, and his reported offer to mediate in order that the conference may not fail, is the sole subject of discussion here and public opinion now places all hope of avoiding a disagreement in the president. The belief is entertained that a failure of negotiations affect the international prestige of the United States which the president wishes to avoid. The reactionary press has taken a radical stand against peace.

### Russia is Implacable.

St. Petersburg, Aug. 21.—Russia's official attitude regarding the final reply to be made Japan Tuesday is unchanged. The impression prevails as heretofore, that only a very great concession on the part of Japan on

the question of indemnity and cession of Sakhalin will make peace possible. The questions pertaining to the limitation of Russia's naval powers and surrender of her interned warships are considered here to be quite susceptible of satisfactory arrangement and not liable to cause serious trouble.

An interesting development Sunday was a statement from the very best authority that the foreign office does not believe that August 22 will necessarily see the conclusion at Portsmouth of the conference, but that there will be further exchanges between the plenipotentiaries, lasting two, and maybe three days. In some quarters this is taken as a sign that there is still hope for a settlement on the basis of concessions.

### No Arbitration for Japan.

Portsmouth, Aug. 21.—"The difference between Japan and Russia will not be settled by arbitration in the popular acceptance of the word," declared the spokesman of the Japanese envoys today. "It may be the final adjustment of details, but not by arbitration will Japan and Russian settle their present difficulties."

### ELEVEN YEAR OLD GIRL MARRIES IN HOWLING GREEN.

Howling Green, Aug. 21.—Lonella Cooper, eleven years old, and Rodney McAllister, children of well known farmers, were married at the bride's home. The parents of both bride and groom gave their consent. The bride is unusually small and wore short clothes.

### A SMALL VOTE

Is Being Polled in the Primary—Was Late in Starting.

The Democratic primary to nominate councilmen, aldermen and school trustees, and a city judge, is in progress today, but a light vote had been polled up to press time. A small vote was reported in nearly every precinct except the fire station near Eighth and Jones, where there was one vote more than ever polled there before.

Some of the candidates were very loud today at the reported negligence of the city committee, which is reported not to have delivered some of the poll books, etc., until nearly 10 o'clock this morning. According to statements made by some of those interested, at some of the precincts not a vote could be cast until nearly 10 o'clock.

### MRS. MARIAH SCHROEDER

Died at a Ripe Old Age at Home of Her Son.

Mrs. Mariah Schroeder, age 87, died at the residence of her son, Mr. J. C. Schroeder, at 1631 Tennessee street, Sunday morning, at 3:15 o'clock of general debility. The deceased was born in Germany but had been living in the United States since she was 15 years old. She leaves a son, Mr. J. C. Schroeder, of the city and two daughters, Mrs. James Scholgnou, of Cincinnati, and Mrs. Ruma Dixon, of Upton, Ky. The body will be shipped to New Albany, Ind., for interment.

## Saloons Opened, Closed Then Opened Again---Primary Not "Under the Law"

The saloons opened as usual this morning, and later it was remembered that it was primary election day and they hastily closed. The matter was then taken up with the city authorities and soon the saloons were open again, with the exception of a few whose owners were afraid to risk it.

The reason that the saloons were finally allowed to open is that the democratic primary is not being "held under the law," technically expressed. It is a legal primary all right, but not held "under the law."

The law requires that when a primary is held under the state law, police shall be posted in every precinct forty days before the election.

The committee did not do this, and when the question was referred to Acting Police Judge D. A. Cross today he decided that the saloons did not have to close for the reason given above. A number of other attorneys agreed with him.

Nearly all the saloons then reopened, but some proprietors did not find out that it had been decided they could open, and remained closed until noon or this afternoon.

## A CALL TO ARMS AROUSED THE CAMP

The Regiment Was Soon in Position to Defend.

Col. Hindman Appoints Investigating Committee—Col. Gaines' Talk Yesterday.

### REVIEW AND PARADE TODAY

Some one caused the regiment to be called under arms at 1 o'clock this morning at "Camp Yeiser," and all day an investigating board has been probing the case in order to find out who did it and the reason why.

At the hour mentioned several shots were fired from a pistol, which awakened the bugler, who rushed out and blew the call to arms and the assembly call. The officers who had been expecting an attack for a few nights were on the alert and quickly got their positions. Col. Hindman arose and hurriedly dressed and with the members of his staff, who reported promptly, made an investigation.

He found the nine companies under arms formed into battalions and located advantageously to give battle to the imaginary enemy. The artillery was rushed on the hill in front of the guard house, which position gave it a wide range all around the camp. At this place the cannon could have poured an awful fire into the attacking party.

The enemy could not be found, so Col. Hindman set about to find out who had the call to arms sounded and why it was done, but his efforts were fruitless. It was reported to him that an attempt had been made to capture the horses at the corral. A squad of soldiers was sent to the corral and some horses that were out were recovered and put in their stalls. One animal was found to be wounded. It was taken to the hospital where bandages were applied by the hospital corps under the direction of Capt. Meyers, assistant surgeon.

After Col. Hindman had closely questioned his officers he ordered the men returned to their quarters and in a few minutes the camp was quiet again.

This morning a board of investigation was appointed consisting of the following: Lieutenant-Colonel Gregory, Major Bowden, Major Samuel W. Green, Capt. Melville S. Bullitt, acting major. They are expected to make a report late this afternoon.

In reality the troops were called out to test the investigating powers of Col. Hindman and his regiment. The name of the guilty party has not been divulged, but Col. Hindman said this morning that he would run him down before the day was over.

### Review and Parade.

At 5:30 this afternoon a review and parade preceding the dress parade will take place preparatory for the governor's inspection Thursday afternoon at the same hour.

The crowd that witnessed the dress parade Sunday evening was the largest that ever assembled in the baseball park. The grandstand was packed and people were standing on the ground. Fully 5,000 saw this inspiring feature. Col. Hindman pronounced the work the most perfect of any dress parade yet held. About the time the troops were ready to pass in review a soldier fell in the ranks prostrated from heat. The hospital corps rushed to him, also Capt. Meyer. He was placed on a stretcher and rushed to the hospital. The attack was slight and he was dismissed soon after reaching the hospital.

The park was filled with spectators yesterday afternoon and night, being one of the largest that was ever within its borders. The street car company had all of its available cars in service and handled the people without an accident.

### Drum Major Absent.

Drum Major William Parrent has returned to Frankfort and Capt. F. M. Maddox acted in his place yesterday morning at guard mount. Capt. Mirvin Parrent filling the place at dress parade. To be a first-class soldier a man must be capable of filling any position from private up to adjutant-general. Capt. Parrent will act as drum major this afternoon. A regular drum major will

## BETTER CONTROL OF THE SITUATION

Fewer Deaths and Fewer Cases of Yellow Fever Today.

Every New Case Is Being Reported and Still There Is a Falling Off.

### PEOPLE ARE MORE HOPEFUL

Official report is to 8 p. m. Sunday:

New cases	45
Total cases	1,385
Deaths	4
Total Deaths	106
New fuel	11
Total fuel	304
Under treatment	381

### Today's Report.

New Orleans, La., Aug. 21.—Seventeen new cases and five deaths were reported to noon today.

### Improvement is Evident.

New Orleans, La. Aug. 21.—No better evidence of the fact that the situation of the mosquito fever is not only being controlled here, but that there is a chance for its eradication, can be found than in the daily reports of cases and deaths. For several days the number of new cases has shown a decline, while the number of deaths has been remarkably low, considering the number of cases reported a week ago.

Of four deaths, one was in the charity hospital, one in the emergency town.

### Situation at Cairo.

Cairo, Ill., Aug. 21.—The increased number of deaths and cases of yellow fever has resulted in a strong desire on the part of a number of citizens for a strict "world quarantine." The feeling that Cairo should close her doors to the traveling public is growing stronger each hour and steps in that direction may soon be taken.

Sunday was a quiet and uneventful day in the quarantine circles here. One incident occurred however which goes to show that the illegal traffic in health certificates is going on in Kentucky and Missouri. A man armed with a health certificate he had purchased in Paducah was stopped at Bird's Point and told that the Paducah certificate would not be honored. He then bought one from a Bird's Point doctor, boarded the train and came to Cairo. When the inspection officers learned of this they caused his arrest and escorted him out of the city.

Mayor Parsons and the state board of health have increased the number of guards to watch the levee front and the various roads leading into the city. Sunday night twelve of these special officers were on duty and more will be put on tonight. Two special policemen will be stationed today at the roads leading over the levee back of town and all persons found dumping refuse, garbage, etc., within certain limits from the city will be arrested and prosecuted.

### Case in Iowa.

Keokuk, Iowa, Aug. 21.—A Greek laborer on a railroad construction, eleven miles from here, is quarantined with yellow fever. He came from Natchez with a gang of Greeks.

### AGAIN REFUSED TO QUARANTINE.

The Board of Health met this afternoon at the city hall at 3 o'clock and all the members spoke against quarantining except Mayor Yeiser.

The board for the first time refused to quarantine. It voted, however, to co-operate with the citizens, the council and others in cleaning up the city.

### Hanged at St. Louis.

St. Louis, Aug. 21.—Henry Heusack was hanged in the jail yard this morning after stoutly reiterating his claims of innocence of the murder of August Rappal, his father-in-law.

## WESTERN NATIONAL BANK CLOSED TODAY

Louisville Institution Again in Hard Luck  
---May Pay Dollar for Dollar.

Louisville, Ky., Aug. 21. (Bulletin)—The Western National bank of Louisville was closed today on orders of the comptroller of the currency.

### Had Been Expected.

Louisville, Ky., Aug. 21.—The failure of the Western bank was not unexpected, as it was known to be in financial straits and the failure has caused little excitement.

Its deposit are over a million. Thomas M. Thornton was appointed receiver.

President T. L. Jefferson says that depositors will be paid dollar for dollar, and the bank will be reorganized at once.

### Report From Washington.

Washington, D. C., Aug. 21.—The examination of the Western National bank showed that its capital was badly impaired by losses.

Steady withdrawals had been made for several days, and as not sufficient funds were on hand, or immediately available to meet further demands likely to be made by depositors and other creditors, the acting comptroller ordered the bank closed to protect the interests of all creditors.

### No Surprise to Paducah Bankers.

The news of the closing of the

### School Board Meeting Postponed.

The school board meeting which was originally called for tonight has been postponed until Thursday night. Some members had important business to attend to and others wanted to act as election officers and rather than take chances on no quorum being present, the president called the meeting for Thursday night.

### Gamblers Pulled in Milwaukee.

Milwaukee, Aug. 21.—Wide open Milwaukee received a heavy blow from District Attorney McGovern, who caused eight gambling houses to be raided. About a hundred and fifty gamblers and ten wagons loaded with apparatus and a thousand dollars in currency were unloaded at the county jail.

### Wanted to Blow Up Winter Palace.

Odessa, Aug. 21.—The police arrested twenty-six Jews at Jalta, while they were holding a meeting. The purpose of the meeting it is claimed was to discuss plans for blowing up the winter residence of the czar at that place.

### Confesses to Poisoning Her Child.

Bloomington, Ind., Aug. 21.—Mrs. John Lynch, while in a dying condition from heart disease, confessed that she poisoned her three-year-old daughter twenty-one years ago. She was never suspected of the crime but says she could not die with the secret.

A man needs something besides faith in God when he tackles a horse's nest.

## CAIRO TODAY QUARANTINED AGAINST PADUCAH AND M'CRACKEN COUNTY

CAIRO, ILL., AUG. 21.—THE ILLINOIS BOARD OF HEALTH HAS REFUSED TO HONOR HEALTH CERTIFICATES ISSUED IN FULTON, PADUCAH, HOWLING GREEN, KY., AND BIRDSVILLE, MO., AND REFUSES TO RECOGNIZE ANY ISSUED IN M'CRACKEN COUNTY, KY.

The above telegram was today received by the Sun from Cairo, Ill. Local members of health boards stated that they had heard nothing of it, and had no idea why such action should have been taken.

It is likely, however, from publications in yesterday's Cairo papers,

bank was not unexpected by the local bankers, as they have known for some time that the condition of the bank was such that its closing by the comptroller was only a question of time.

None of the Paducah banks is affected by the closing. The City National bank has been the local correspondent of the bank for over twenty years, but the balances have always been in favor of the City National.

The bank has had trouble before. Two years ago one of its employees robbed it of over \$30,000, and once before that, one of the officers got away with a big sum.

It was reorganized as a national bank only last fall, and W. B. Smith, formerly of Paducah, took the presidency. The capital was increased from \$150,000 to \$300,000 at that time.

Victor J. Blow, of V. J. Blow & Co., which has a branch stove plant in this city, and who formerly resided here was one of the directors. He told some of his friends a few weeks since that he intended selling his interests and retiring from the directory, but it is not known whether he did so or not.

Several Paducah men were interested in the bank when it was reorganized but inquiry today failed to reveal whether they had sold out or not.

### Is Prince Henry Coming Again?

Berlin, Aug. 21.—It is impossible to obtain confirmation of the report sent out to the effect that Prince Henry, of Prussia is planning to pay another visit to the United States this fall.

### Start Home With Luster.

Ogden, Utah, Aug. 21.—Officers started last night for Guthrie, Ky., with Percy Luster, the confessed wife murderer. Luster will be kept handcuffed to the officers for fear of an attempt at suicide.

### Mayor Dunne Fined for Searching.

Chicago, Aug. 21.—Mayor Dunne, of Chicago, was arrested yesterday afternoon in the suburb of Evanston for violation of the ordinance regulating the speed of automobiles. He paid a \$10 fine.

in which the alleged laxness in issuing health certificates was shown by numerous affidavits from people who had procured the certificates in Paducah and other places, that Cairo became afraid to longer accept health certificates issued here. There has been more or less trouble over the certificates all along, and from the above, Cairo has simply quarantined against Paducah and the other places and no one will be allowed to get off trains and boats from Paducah, no matter how many health certificates they have from here or this county.

The people of Cairo seem to be badly frightened. There are two factions in our Egyptian neighbor, one wanting to have a common-sense quarantine and the other wanting to isolate Cairo from the world and not let anyone in or out.

Vincennes, Ind., Aug. 21.—The Alice men jumped onto Brahic yesterday and gave him the only severe beating he has had this season. He was literally pounded into jelly, the locals lambasting his curves in every direction. Thirteen hits in all were secured off his delivery, seven of which were two baggers. Perdue, on the other hand, was invulnerable, and but for Forney's drop of a long fly would have shut the Indians out. Score:

The L. A. L. team defeated the Shamrocks yesterday by a score of 18 to 11. Block and Block was the battery for the L. A. L. team.

The Belvedere defeated the South Paducah team yesterday by a score of 6 to 5.

The L. A. L. team will go to Benton Thursday to play the team of that place.

#### Former Kitty Player Arrested.

Says the Nashville Banner "Harry Nickens, who was with the Nashville ball team for some time, and who lives in this city, was placed under arrest last night by Patrolmen Fagan and Longhurst on a warrant sworn out by R. Sanford, who accuses Nickens of assault and robbery. Nickens was taken to the police station and he makes a denial of the charge of robbery. He admits that several persons, together with himself, engaged in a scuffle, but that was all."

#### Paducah's Post-Season Series.

It seems that the post-season series between Paducah and Vincennes is for thirteen games. The following is the agreement:

It was agreed by the two clubs on Thursday that they should play thirteen games commencing Friday, six games at Vincennes and six games at Paducah and the thirteenth, if necessary, on some neutral grounds, preferably Evansville. It was, however, agreed that only the first three games out of the six played at Vincennes and Paducah and the thirteenth game should be considered in determining the championship.

The articles of agreement drawn up between the two clubs on file in the secretary's office are as follows: Vincennes, Ind., Aug. 17, 1905.

We, the undersigned managers of the Vincennes and Paducah baseball clubs, hereby agree to play twelve games with each other, six at Vincennes, six at Paducah and another, the thirteenth game on some neutral grounds to be mutually agreed upon.

We further agree that of the first six games to be played at Vincennes and Paducah, that the first three played in each city and the thirteenth game played on neutral grounds shall count in determining which of the two clubs shall be the champions of and awarded the pennant for the year of 1905.

Be it further agreed between the

two clubs that a \$50 guarantee or a choice of 50 per cent of the net receipts, based on general admissions, shall extend to each and every game played or scheduled with the exception of the thirteenth game on neutral grounds when the gross gate receipts shall be equally divided between the two clubs.

We further agree to commence playing at Vincennes on Friday, August 18, and continue playing one game each day, six at Vincennes and six at Paducah and the thirteenth on neutral grounds until the total of thirteen games have been played.

Manager Paducah B. B. Club.

#### Dope.

Mr. Louis Theobald, of the Mayfield road, went to Princeton Sunday to play with the Princeton team as pitcher against a Madisonville team. The Princeton team was defeated by a score of 5 to 1. The Madisonville team had a Cotton States battery.

"Dummy" Hughes, first baseman for the Cairo team, passed through Paducah yesterday en route to Vincennes to play first base for the Paducah team. Since Gilligan left the team first base has been weak. Hughes will finish the remainder of the post season series with the Paducah team.

It is announced in Hopkinsville that the suit against the Kitty league for a receiver will not be dropped because the league disbanded for the season. The New Era says:

"The disbanding of the K. I. T. league will have no effect on the suit for damages and the winding up of the league's affairs, says Attorney John Feland, in whose name and by whom the suit was filed. The papers in the case have all been duly served and John Stiles and Herman Southall, who were appointed to represent the non-residents defendants, Secretary Greeney and Treasurer C. C. Gosnell, have accepted the appointment and have filed their notice that the case would be fought. Although the Kitty is dead, it will be like at other deaths, there will be a warm fight in the courts over the property left."

This suit, however, will amount to nothing. The money is all in another state and out of the jurisdiction of Kentucky, hence the Kentucky courts cannot enforce any order disposing of it. The Cairo crowd is most too foxy for the rest of the league. This has been proven ever since the Kitty league was organized. Secretary Farnbaker has managed to have his own way, even to disbanding the league when Cairo got tired of it. They may say what they please about Farnbaker, but he's most too smooth for the others.

Farnbaker has always worked hard for the good of the league, but he wasn't always given a square deal. Some of the others got it in for him last season and tried to oust him as secretary. They didn't do it because it turned out that Farnbaker had the money and the records. Hopkinsville and Henderson used all the ammunition they had on him, however, and complacently announced that he had been ousted as secretary.

Then this year Farnbaker doctored up again as "acting secretary," which simply meant secretary and when he got a chance Hopkinsville was kicked out of the league. Soon after the league became a four-club affair Cairo decided that it wasn't worth while to play ball when she couldn't be at the top, and decided that the league must disband. A meeting of directors was held a week ago and it was announced that the league would not disband, but would play indefinitely, if not to the end of the season.

Cairo then sent Farnbaker up to Cincinnati, he met some of the high gazabos of the National association and arranged for the league to quit and retain its players. Then Farnbaker telegraphed the news, and without a meeting of directors or any further formality, the league disbanded four days after it had decided to keep playing.

Farnbaker should be given his dues. He's the candy. He's too foxy for the others, and ought to be in faster company.

## BOARD OF WORKS

WILL HOLD REGULAR MEETING THIS AFTERNOON.

Secretary Fowler and Auditor Kirkland, of the Board, Will Go to Toledo, O., Tonight.

The board of public works will meet this afternoon at 4 o'clock instead of Wednesday afternoon, the regular meeting time, because Secretary S. A. Fowler and Auditor Alex Kirkland will go to Toledo, O., tonight and be absent from the city till Wednesday.

The board will this afternoon let the contract for the coal necessary to run the city electric light and steam street roller. The contracts are to be let separately because each requires a different kind of coal. There are bids in from several companies and they will be opened this afternoon at the board meeting.

The board will also formulate a report, it is said, on the street number and signs matter.

The expense will run to something like \$1,000 and the board does not believe the council wants to go spend this much. A report will likely be given the council tonight.

There are other routine matters referred from the legislative boards which will come up this afternoon, none being of much importance.

### THE WILLIAMS HERE.

Preparations Being Made to Pull Her Out on the Ways.

The steamer Joseph B. Williams was raised and brought down from the Sisters Bar yesterday by the Pacific No. 2 and the Fulton. The Williams appears to be in a bad way. The hole in her hull was found to be twenty feet wide and ninety feet long. The boat was brought here yesterday morning at 11 o'clock. Little trouble was experienced in bringing her down, the trip being started at 7 o'clock yesterday morning. The pumps of the boats which brought her down have been working steadily from the time the boat was raised until now. The Chattanooga, which is being repaired, has been let off the ways and is tied up just above the marine ways. A large force of men are working getting everything in readiness for the attempt at putting the boat on the ways. Barges on either side serve to hold up the wrecked boat. The barges on the barboard side, where the hole was made, are showing the great weight thrown on them by the boat. The guards of the Williams were lifted up and brought down over the side of the barges and made fast in that position, throwing almost the entire weight on the barges. The Williams has been torn up a great deal by the men in raising her.

It is not known whether the boat will be fully repaired here or only patched up and taken somewhere else. The damage is estimated at \$18,000 or \$20,000.

### WAITING ON COMPANIES.

Proof of Death Made Out in H. A. Rose Case.

Administrator Felix Rudolph and Attorney W. V. Eaton have made out proofs of death on every policy except two, on the life of the late H. A. Rose, and are now waiting on the insurance companies.

The payment of the \$10,000 policy taken out for the Kentucky Mill and Lumber company, and assigned to the Western bank at Louisville, has been referred by the Louisville office to the home office of the company in Vermont, and the company will now have to decide whether it will pay the insurance to the bank or to the estate. There will probably be a lawsuit over it either way. Various reports have been circulated about the policy, one of which is that the administrator may be able to prove that the policy was not turned over to the Western bank until after Rose's death. None of the reports can be confirmed, however.

### EAGLES TO MEET.

Will Elect Trustees and Adopt By-Laws.

A meeting of the newly organized Paducah aerle of Eagles will take place tonight for the election of trustees and the adoption of rules and by-laws. A large membership is expected to be on hand.

## THE COUNCIL

WILL HOLD ITS REGULAR MEETING THIS EVENING.

New Street Car Ordinance and Ferryboat Franchise Among the Measures Expected.

The councilmanic board meets tonight with considerable business on hand. Among the new ordinances expected to come up is one regulating the operation of street cars in the city of Paducah. The rules that the ordinance will contain are to be: Cars must leave the terminals of all lines at 6 a. m. on the first trip and at 11 p. m. on the last trip. Cars must leave the terminals of each line at least every twenty minutes from 6 o'clock a. m. to 11 o'clock p. m. Transfers must be given by conductors. Each car must carry a conductor at all times. Passengers who have paid fare must be delivered to destination. Signs must be displayed on each end of cars giving routes and destination.

At present street cars are required to run on a schedule from 6 a. m. to 10 p. m. except on special occasions. On Sundays they do not start until 6:30 a. m. Transfers are not given by conductors, but by agents at the transfer station at Fourth and Broad ways.

An ordinance for the sale of a ferryboat franchise will probably be presented, and also an ordinance for a spur track for the I. C. on Harrison between Eighth and Ninth, for the Hardy Huggy company.

### UNVEILING AT SHILOH.

Large Crowd Went Up on the Kentucky Saturday and Sunday.

A monument to Kentucky and Tennessee soldiers at Shiloh will be unveiled at Shiloh National park tomorrow and there is already a large crowd of ex-Confederates on hand, and a large delegation will reach there today on the steamer Kentucky, which left Paducah Saturday evening. This crowd boarded the boat at Johnsonville, Tenn.

The Nashville Banner says of the unveiling: "Miss Leonora Cheney, who will unveil the monument at Shiloh to the Second Tennessee regiment next Tuesday afternoon, will leave tomorrow accompanied by her father, Capt. H. J. Cheney, who was adjutant general of this regiment, which was General Bate's. The unveiling of the monument is a matter of much interest to all patriotic Tennesseans, and it is expected that a representative party will be in attendance."

"Miss Cheney's selection by Mrs. Wm. B. Bate for the honor of unveiling the monument was a most appropriate one. Accompanied by her father and the late Senator Wm. H. Bate, a few months before his death, she visited the battlefield of Shiloh, on which occasion Senator Bate selected the site for the memorial shaft."

### The Frisco Rumor Revived.

The rumor that the Frisco is to take over the Tennessee Central railroad and build from Hopkinsville to Paducah, has been revived, because of a meeting of Senator Bailey at St. Louis with Frisco officials. It is believed that the St. Louis conference is to close the deal.

### Died of His Injuries.

Nathan Duncan, 17 years old, and son of Rev. M. P. Duncan, died at Smithland from wounds inflicted with a knife at a fight near the Methodist church at Sugar Creek, in Livingston county, by George Devers, aged 21, who escaped.

## McPherson Says:

There is nothing equal to the luxury of a good bath. This "luxury" can only be enjoyed when you use the proper requisites. Our stock of soaps, bath brushes of all kinds, sponges, spray and massage brushes, bathing caps, sponge and wash rag bags, toilet water, talcum powder, etc., is larger and better assorted than ever before.

## BROKE HIS NECK

BOY DROWNED AT HOME OF RUSSELL GARDNER.

Attempted to Make a Dive and His Head Hit in the Mud Breaking His Neck.

Dresden, Tenn., Aug. 21.—Van Zandt Garesche of St. Louis, aged 16 years, was drowned in an artificial lake on Russell Gardner's summer place here while in bathing. He and three other lads, two of them sons of Russell Gardner, were diving from a springboard which stands eight feet above the water, into water which at this point was not more than two and a half or three feet deep. Garesche took a flying leap, went high into the air, and turned straight down, striking his head in the soft mud, and breaking his neck. The force of the blow was so powerful that he stuck where he hit, and remained in that position with his feet dangling above the water. Death was instantaneous and without a struggle.

His companions were on the bank amusing themselves in divers ways, and when they saw the unfortunate lad sticking in the mud presumed that he was playing a prank, and gave but little notice to him. When he did not come to the surface, after a reasonable time, they saw that something was wrong, and went to his assistance, only to find their playmate dead.

Young Garesche came here several weeks ago to spend the summer with his schoolmate, Russell Gardner, Jr., his family is hardly known to that of Russell Gardner, but the boys were fast friends, and the death of one has grieved the other deeply.

### BOB TAYLOR HERE.

Prominent Lecturer and Politician in Paducah to Lecture Tonight.

Former Governor Bob Taylor, of Tennessee arrived in Paducah this afternoon, and was met at the N. C. & St. L. depot at 1:10 o'clock by a reception committee from the Traveling Men's club, under the auspices of which he will tonight lecture at the Kentucky. The committee was composed of: Milton Sanchez, chairman; Henry A. Petter, J. E. Walters, R. S. Van Loan, Harry Phillips, Stu Becht, Ernest Lackey, Van Barnett, L. F. Kolb, L. S. DuBois, A. R. Grouse, C. W. Brown, Thomas Hall, Gus Smith and W. V. Green.

Among the people at the Kentucky tonight will be a number of the officers from Camp Yelzer. The ushers at the Kentucky will be as follows for tonight: J. E. Walters, chairman; Van Barnett, S. M. Hecht, Louis Bieke, Jr., Harry Phillips, A. R. Grouse, C. W. Brown and Gus Smith. R. S. Van Loan will be the ticket taker. The ushers will meet promptly at 7:30 o'clock at the theater.

### SUES MAYOR.

Metropolis Ex-Mayor Undertakes to Force Purchase of Bonds.

Former Mayor A. J. Gibbons, of Metropolis, Ill., has filed a mandamus suit at Metropolis against Mayor Elliott and members of the city council to force them to take up bonds for which \$2,000 was appropriated. The money, it is alleged, is being spent for street improvements instead of taking up the bonds and reducing the city's indebtedness. The bonds in question are drawing 7 per cent, and the people seem to be divided on the question of paying them off and having the street improvements wait. The case will come up for trial August 28, and much interest has been aroused in it.

### Cutting Scrape Saturday.

Sam Vinson, colored, was cut by John Ewell, colored, at the foot of Ohio street Saturday afternoon late. Then men were waiting to help unload a boat when a quarrel arose. Vinson was stabbed in the left breast, right breast and hand, and but for the fact that the knife glanced off the ribs, would probably have been killed. The wounds were dressed by Dr. Johnston Hoss, and Vinson was taken to his home 1043 Kentucky avenue. He will probably recover.

### Was Not the Man.

Will Jackson, colored, arrested here several days ago and taken to Gadsden, Tenn., for malicious shooting, proved to be the wrong man, and has been released and returned to Paducah. He is porter at Blackwell's saloon, and bears a good reputation in Paducah.

## THE COLLEGE

WILL PROBABLY NOT BE CONSIDERED NEXT MONTH.

Secretary of Methodist Board Does Not Think Matter Will Be Taken Up in September.

It is probable that the question of locating the Methodist college will not be settled as soon as expected. Marion, Ky., is after the college, and the secretary of the Commercial club there has received the following letter in response to one setting forth Marion's advantages:

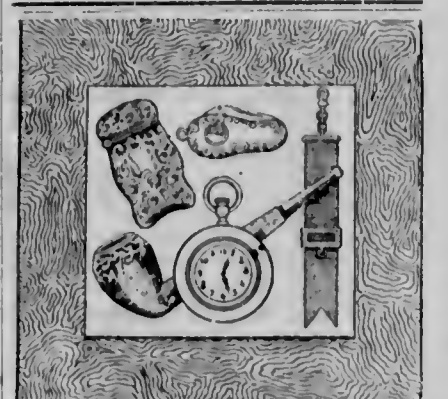

"Your letter of 11th inst. to hand and noted. As secretary of the board of education of the Kentucky, annual conference of the M. E. church, I beg to advise that some time in the future our board will probably establish a school somewhere in Western Kentucky but we do not know when, and the matter, I am sure, will not be taken up at our next meeting on September 29th at Lexington, Ky., but when we do take the matter up, a committee of our board will be appointed to examine feasible sites, etc."

"Your letter will be kept on file and at that time we will correspond with you further about the matter."

"Very truly yours,  
"C. B. NORDEMAN, Sec'y."

This will not deter Paducah or any of the other cities after the institution, however, in working hard to land it.

Killed in Missouri.  
The body of Charles Sanders was a day or two ago taken to Smithland, Livingston county, for burial. He was shot and killed, it is claimed, by his cousin, Will Dave Long, at Charleston, Mo., as a result of a quarrel. Sanders is alleged to have been advancing on the other with a knife. The young men left Smithland about a year ago and located in Missouri.

## Daily Thought.

"Every cry of need is God's open door to some garden of paradise."

## WHAT ANY TOWN NEEDS.

Commercial clubs are beginning to be more appreciated, and if the general public fully understood the intricate work of such organizations, and could be taken into the confidence of the officers and he apprised of the vast amount of labor and diplomacy required, most of which of necessity has to be withheld from the public in order to attain the results desired, such organizations would be still more appreciated, and no city or town would long be without them.

The Henderson Gleaner says:

"Meet most any man on the streets and in a conversation lasting five minutes he can tell you of a dozen things which Henderson sorely needs before it can improve. There will be mentioned in the course of the talk sidewalks, improved streets, a better sewerage system, factories, fewer knockers and then your friend will drift off into a most eloquent discourse on the subject of knockers and tell you more things about them and their plentifulness in this community than you ever dreamed of before."

"The gentleman probably tells the truth, even about the knockers but after all what good does his talk do. It is only empty talk at the most and empty talk has never accomplished anything in this world. The only way any man, town or city ever accomplished anything was by getting up and doing. So it seems that if Henderson has any chance of securing the many improvements needed and wants to eliminate the knocker it will have to do less talking and do more work."

"Many plans have been suggested for the improvement of the city and many of them are good ones. The best yet offered and the most feasible of them all is the organization of a real, live association of business men who will harmoniously work for the good of the town. It is a plan that has been successfully tried in cities and towns both larger and smaller than Henderson and it has been a success."

No one will be very badly fooled by the optimistic statements about suppressing the yellow fever scourge in the south. As long as it exists this time of the year there is danger of its spread. It has been known to remain epidemic as late as December—and this is only August. While it is comparatively mild, and the number of cases is smaller than at times of previous epidemic, it is nevertheless so dangerous that some

parts of the south are closed to the world. Paducah is the first "getting off" place for refugees, and the people here are certainly entitled to some kind of protection. If one case should appear in Paducah, the board of health will be forever damned in the eyes of the people—not for failing to do its duty but for failing to know what its duty was. With New Orleans only a 21 hours' ride, and Paducah taking all who care to come from there, it is no time for foolish theories or idle suppositions. All Paducah wants is protection to life, health and business.

It is about time the Republicans were thinking about the fall election in Paducah and McCracken county. That there would be complete tickets put in the field has never been doubted, but there is never the necessity for action so far ahead of time as with the Democrats, hence the Republicans have been spared several months of election turmoil and campaigning. Republicans will go in this year, as usual, to win if they can, making a clean, honest fight. If they cannot win, they will accept defeat gracefully, fall into line behind the victors and do all in their power to bring peace, prosperity and happiness to the people of the county and city. The people, we believe, fully understand what they have received at the hands of the men in county and city office in past years, and what they are likely to receive in the future. If they want a change, which we would heartily recommend, they can get it by their votes. If they do not want a change, we believe in majority rule.

It is well to send delegates to municipal improvement conventions, and to spend city money to do it, but what will be the advantage? If it is merely to get ideas tending to benefit the city, what good will it do to get the ideas? Aren't the papers full of good ideas for the improvement and advancement of Paducah every day? Do not the preachers, the doctors, the lawyers and many others offer good suggestions every day, and yet whatever comes of them? We cannot even induce the city government to put up the names of streets on the corners, which should have been done 25 years ago. We can't get anything done, it seems, either because the money is spent for other things, or because the administration does not appear to be susceptible to ideas of modern improvement. What we need is not ideas for the improvement of the city, but ideas for the improvement of the city officials.

A man is thinking of starting a Republican newspaper in Graves county. Somebody ought to tell him better. The Democratic papers have a hard time keeping up, and Graves county is one of the biggest hot beds of Democracy in the state.

## WORK BEGAN TODAY

On the Storm Water Sewers on Kentucky Avenue.

Thomas Bridges Sons, the contractors who secured the sub-contract from the Southern Bitulithic company to put in four blocks of brick streets on Kentucky avenue and five blocks on Jefferson street with storm water sewers, started work on the sewer contract this morning. The contractors started on Kentucky avenue and will complete the sewer connections on this street first, then taking Jefferson street.

It is said that Contractors Robertson & Gardner who will carry the sewers on out to Ninth street, will wait until the Bridges firm has completed its job, so the streets will not be torn up so badly.

## IN THE COURTS

## Police Court.

The star case in police court this morning was that against Douglas Mains and Robert Tidwell, white, charged with a breach of the peace. Tidwell is alleged to have drawn a knife on Mains, who struck Tidwell with a brick, inflicting a wound in the back of the head.

Mains claimed Tidwell tried to cut him, while Tidwell claimed he cut to defend himself. Mains drawing bricks first and following him.

Judge Cross fined Mains \$5 and costs and dismissed Tidwell.

Other cases were: Frank Wood, white, beating his horse, \$10 and costs; W. C. Stanford, white, violating the Sabbath, continued.

## Will Deny the Charges.

Attorney D. A. Cross has been employed by the defendant in the suit of W. H. Paul against Ada Paul, for divorce, and will this week file answer denying all charges made. Paul is a railroad engineer formerly connected with the interurban electric line proposed to be built between Paducah and Cairo. The defendant resides in Belleville Ill., and Paul lives in Paducah and has for more than a year.

## Cow Case Decided.

Huckster Banks lost his cow case in Justice Barber's court Saturday. He claimed a cow had been sold to a number of persons since it first saw the light five years ago. Banks claimed the cow was one he sent to R. L. Howell's farm in the Maxon's Mill section to be pastured and which had been reported to him as having died. It proved to be a case of mistaken identity, and one of the exhibits introduced as evidence were the hoofs of the dead cow. The animal that Banks claimed is now owned by Dairymen Claude Russell, to whom it was awarded.

## To Sue the City.

Oscar Knowles, a barber in the Palmer House shop, is preparing to sue the city of Paducah for \$10,000 damages. He claims that last winter he had smallpox and was taken to the pest-house, where he was mis-treated, and went for three days without a doctor coming to see him. He also claims he was taken there without being allowed to consult relatives regarding attention, and that while in the pest-house he was grossly neglected.

## Barber's Court.

Justice Barber convened his regular court today and called the docket. No cases were tried.

## THE MAYOR SIGNS

And it is Now Unlawful to Spit on the Sidewalks.

Mayor D. A. Yeiser has signed the "anti-spitting" ordinance and it is now a law.

"I have always approved of any and all measures which promote the sanitary condition of the city, and never did like the idea of making a spectacle of the pavements and public places in the city," Mayor Yeiser declared today, "and I lost no time in signing the ordinance."

The first ordinance was rendered invalid because of the stenographer leaving out the word "walk" in writing the ordinance, making the ordinance read "a fine shall be imposed on anyone expectorating on any side" of the city. The intention was to read "sidewalk," and on this account another ordinance had to be drawn.

The patrolmen have instructions to see that the ordinance is enforced and will arrest all persons caught spitting on the sidewalk and in any public places.

## DR. TOM MOSS

Sails August 31 From Seattle For the Philippines.

Dr. Tom Moss of Woodville, who had been in Paducah the past several days winding up his business here, left yesterday for La Center and from there will go direct with his family to St. Louis, Portland, Ore., and Seattle, sailing from the latter place on the 31st, for the Philippines, where he has accepted an appointment as lieutenant and medical inspector in the government service. He will receive a salary of \$2,600 annually and will be provided with quarters for himself and family. His term of enlistment is for two years and he will on his return to this country make a tour of the world, going around through Egypt.

## Chief Woods Expected Back.

Chief James Woods, of the fire department, is expected to return today from Duluth, Minn., where he went to attend the national fire chiefs' convention.

## IS YOUR WHEEL GONE?

THEN THIS THIEF MUST HAVE STOLEN IT, TOO.

Over a Dozen Bicycles Stolen in Paducah Within the Past Week.

Paducah evidently has a bicycle thief who is in the business on a wholesale plan. Over a dozen bicycles have been reported stolen within a week, and there may have been several stolen and not reported. The bicycles are not sold here, hence the belief of the police is that they are shipped or ridden out of town and taken elsewhere to be disposed of.

Saturday night five bicycles were stolen from in front of the Warren & Warren jewelry store on Broadway, where an auction was in progress. One of the wheels belonged to Mr. W. N. Warren, senior member of the firm.

Others reporting the loss of bicycles Saturday were: The Rev. John S. Cheek, of the First Baptist church. His wheel was taken from in front of his residence, 125 North Fifth street.

W. M. Smith, of number 5 Huntington Row, was attending the Warren auction sale when his wheel was stolen.

Harry Vick, of 1334 Madison street, rode to market on his wheel and it was stolen.

John Stevenson, of 226 North 8th street, had his wheel stolen at 4 o'clock a. m.

Ed Reynolds, a negro of Rowlandtown.

William Heath, of 1312 Broadway.

Several of the wheels stolen last week have been recovered, one belonging to Mr. C. W. Collier being recovered Sunday.

Three other wheels were found in an alley on the south side, where they had been left by the thief. It is thought possible by the police that boys ride the wheels off, and when through riding them, leave them somewhere to be picked up by the police.

## NOTICE.

The Baton Lumber Co., vs. Steamer Charleston:

Whereas two libels were filed in the District Court of the United States for the Western District of Kentucky at Paducah on the 1st and 5th days of August, 1905, respectively by the Baton Lumber company, against the steamer Charleston, alleging in substance that the said steamer is in debt to said company in the sum of \$— and that said libellant part owner of said steamer, and prays for a sale of said steamer in a cause of liquidation or partition civil and maritime and for process against said steamer and against all persons having an interest therein and especially against J. ## BILL FRANKS DEAD

POPULAR PADUCAH TWIRLER DIES AT GALLATIN, TENN.

Had for Three Years Been in the Kitty League and Was Very Popular.

William E. Frakes, one of the star pitchers for the Paducah K. I. T. baseball league, died at his home in Gallatin, Tenn., Saturday morning of locked bowels after a very short illness.

The deceased was a man of quiet manners and while generally popular with all fans and players on the league circuit, was not much of a "mixer." Frakes was married, and while he rarely ever participated in any of the larks of his associates, he was nevertheless a favorite and the boys worked hard behind him to win his game.

The deceased made his first appearance in professional baseball during the first season of the league three years ago in a Clarksville uniform. He was taken off the commons in Gallatin, where he had made a wonderful showing and was a star performer for the Clarksville team. He was with the same team the next season but was taken ill of a disease thought to be consumption and sent home. He recovered and this year signed with Paducah. Frakes was ill once during the season and had to return home, but recovered and joined the team again, pitching better ball than ever. He was taken ill at Cairo Saturday a week ago and came through Paducah

Monday en route to his home. He stated while here that he had a presentiment that this would be his last trip home and that he would never be able to play ball again. His friends, however, joked with him about it, but Frakes seemed depressed.

Frakes was about 28 years old, and leaves a wife, his baby dying early in the season of summer complaint, and the funeral of the father was held yesterday at Gallatin.

The first news of his death came to Paducah through a long distance telephone message, and later President Gus Thompson, of the local association, received a telegram from relatives of Frakes in Gallatin.

The fans and baseball enthusiasts in general will regret to learn of the pitcher's death.

## DELEGATES LEAVE

For the Municipalities Convention at Toledo, O.

Mr. Alexander Kirkland, city auditor, and Mr. Saunders A. Fowler, secretary of the board of public works, will leave tonight or tomorrow morning for Toledo, O., to attend the annual convention of the League of American Municipalities, and will do all they can to advertise the city and secure new ideas for development and advancement.

Mr. D. W. Coot, secretary of the Commercial club, has furnished the Paducah delegates with a lot of printed matter to distribute and hopes in this way to advertise the city and bring industries here.

The league meets on the 23rd and remains in session three days. Messrs. Kirkland and Fowler will attend all three days.

## A Trio of Weddings.

Central City, Ky., Aug. 21.—Last week was one of surprises in the way of marriages. Miss Ora Stewart, daughter of Mr. and Mrs. Ed Stewart, and Mr. H. F. Storer, a jeweler of this place, were married in the residence of the Rev. Mr. McDonald, of Greenville. Mr. and Mrs. Storer will reside in the dwelling on Broad street recently purchased by Mr. Storer, making this their future home.

Mr. W. H. Creel and Miss Nola Stewart were also married at the residence of the Rev. Mr. McDonald in Greenville. Miss Stewart, like her sister, Mrs. Storer, is popular, and pretty. Mr. Creel is a well known young business man, the son of ex-Mayor Dr. M. P. Creel. Mr. and Mrs. Creel will be at home after September 1 in Paducah.

Miss Susie Little, daughter of Capt. W. S. Little, and Mr. Charles Hughes, of the Illinois Central railroad, were married in Greenville by the Rev. G. B. McDonald. Mr. and Mrs. Hughes are at home to their friends at the home of the bride's father.

## Fulton Man Dies.

Fulton, Ky., Aug. 21.—James H. Thetford, one of the best known and most prominent citizens of Fulton, died at the Heechhurst Sanitarium, near Louisville, Ky. Mr. Thetford has been prominent in all public affairs for about ten years. At the last city election he made the race for councilman and was defeated by a small majority. The remains were brought to Fulton for burial.

## Death in Graves.

Mayfield, Ky., Aug. 21.—Mrs. Ella Sawyer, wife of Will T. Sawyer, died at her home in Hickory Grove after several days' illness. She was about forty years old.

## Fulton Man Suicides.

Fulton, Ky., Aug. 21.—Lee Taylor, of this city, committed suicide at the home of his father, George Taylor, near Ruthville, Tenn. He took a large dose of morphine, and when discovered by members of the family was beyond aid. Mr. Taylor's mind failed some time ago, and he was placed in the asylum. Becoming better, he was allowed to come home.

## New Paper for Mayfield.

Mayfield, Ky., Aug. 21.—Mr. A. C. Bell, editor of the Princeton Chronicle, was in the city looking over the field with the intention of starting a weekly republican newspaper at Mayfield. He and a few of his republican friends here have been investigating the matter by sending out letters and otherwise inquiring into the propriety of starting such a paper at this place. So far, arrangements have not been perfected nor the time set for the beginning of such a publication.

## A Big Coal Deal.

Madisonville, Ky., Aug. 21.—John B. Brasher, county clerk of Hopkins, has bought the Royal coal mines here, and is understood to have paid \$65,000 for them. The mine works 100 men, and while some seem to think that Mr. Brasher will go into the mining business, others believe that he bought the mine for speculation, and will sell it to some of the syndicates that are buying up coal lands in this part of Kentucky. Mr. Brasher recently bought some property from the St. Bernard Coal company and is alleged to have sold it at a profit of \$36,000.

## CAUSED FIRE IN EAST TENNESSEE SWITCH BOARD.

## A Number of Telephones Put Out of Business for A While—All Working Again.

A small fire in the exchange room of the East Tennessee Telephone company threw several dozen phones out of order Sunday at noon, but they are nearly all in working order today and little damage was done by the fire.

Wires in the switch board got crossed and started the blaze. There was a great deal of excitement among operators and some one threw a bucket of water in the switch board. This was the principal cause of the phones being out of order and as soon as the wires could be dried out, the disabled phones were placed in operation again.

This morning all but about half a dozen phones were in working order, and these will be repaired today. The damage amounts to little.

The negro pulled the yawl out and raised up the line attached to the jug, but rowed quickly back to the boat and told the pilot that there was a whale on the end of the jug. The deckhands were then sent out, with an axe and a pair of ice picks. They secured the "whale" and found it to be an immense catfish weighing 73 pounds and being four feet three inches long.

## To Nominate Legislative Candidate.

A Republican convention is to be held at Salem, Livingston county, today to nominate a candidate for the legislature. It is likely that dissatisfied Democrats of Livingston will meet with the Republicans and support the candidate.

The nice increase in our business since the first of the year is very encouraging to us.

## DOWNWARD COURSE.

Fast Being Realized By Paducah People.

A little backache at first. Daily increasing till the back is lame and weak. Urinary disorders quickly follow. Diabetes and finally Bright's disease.

Don't take this course. Follow the advice of a Paducah citizen.

H. L. Blackford, of 615 Washington street, carpenter by trade, says: "It occurred to me when reading a notice about Doan's Kidney Pills that if they performed half what they promised they might cure my kidney complaint which annoyed me in shape of backache. I went to DuBois, Kolb & Co.'s drug store, got a box and commenced the treatment. If it had not benefited me I never would have bought a second, and if the second had not brought undoubted results I could not be induced to recommend Doan's Kidney Pills to friends and acquaintances personally, much less publicly."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

## The Adventure of the Golden Pince-Nez

No. 10 of the Series

(Continued from yesterday.)

"This is recent, quite recent. See how the brass shines where it is cut. An old scratch would be the same color as the surface. Look at it through my lens. There's the varnish, too, like earth on each side of a furrow. Is Mrs. Marker there?"

A faded elderly woman came in to the room.

"Did you dust this bureau yesterday morning?"

"Yes, sir."

"Did you notice this scratch?"

"No, sir; I did not."

"I am sure you did not, for a dustier would have swept away these shreds of varnish. Who has the key of this bureau?"

"The professor keeps it on his watch chain."

"Is it a simple key?"

"No, sir; it is a 'clubby' key."

"Very good. Mrs. Marker, you can go. Now we are making a little progress. Our lady enters the room, advances to the bureau and either opens it or tries to do so. While she is thus engaged young Willoughby Smith enters the room. In her hurry to withdraw the key she makes this scratch upon the door. He seizes her, and she, snatching up the nearest object, which happens to be this knife, strikes at him in order to make him let go his hold. The blow is a fatal one. He falls, and she escapes, either with or without the object for which she has come. Is Susan the maid, there? Could any one have got away through that door after the time that you heard the cry, Susan?"

"No, sir, it is impossible. Before I got down the stairs I had seen any one in the passage. Besides, the door never opened or I would have heard it."

"That settles this exit. Then no doubt the lady went out the way she came. I understand that this other passage leads only to the professor's room. There is no exit that way?"

"No, sir."

"We shall go down it and make the acquaintance of the professor. Hello, Hopkins, this is very important—very important indeed! The professor's corridor is also lined with convenient matting."

"Well, sir, what of that?"

"Don't you see any bearing upon the case? Well, well, I don't trust upon it. No doubt I am wrong. And yet it seems to me to be suggestive. Come with me and introduce me."

We passed down the passage, which was of the same length as that which led to the garden. At the end was a short flight of steps ending in a door. Our guide knocked and then ushered us into the professor's bedroom.

It was a very large chamber lined with innumerable volumes, which had overflowed from the shelves and lay in piles in the corners or were stacked all round at the base of the cases. The bed was in the center of the room, and in it, propped up with pillows, was the owner of the house. I have seldom seen a more remarkable looking person. It was a gaunt, aquiline face which was turned toward us, with piercing dark eyes which lurked in deep hollows under overhanging and tufted brows. His hair and beard were white save the latter was curiously stained with yellow around his mouth. A cigarette glowed amid the tangle of white hair, and the air of the room was filled with stale tobacco smoke. As he held out his hand to Holmes I perceived that it was also stained with yellow nicotine.

"A smoker, Mr. Holmes?" said he, speaking in well-chosen English, with a curious little mincing accent. "Pray take a cigarette. And you, sir? I can recommend them, for I have them especially prepared by ladies of Alexandria. He sends me a thousand at a time, and I grieve to say that I have to arrange for a fresh supply every fortnight. Had, sir, very bad, but an old man has few pleasures. Tobacco and my work—that is all that is left to me."

Holmes had lit a cigarette and was shooting little darting glances all over the room.

"Tobacco and my work, but how only tobacco," the old man exclaimed. "Alas, what a fatal interruption! Who could have foreseen such a terrible catastrophe? So estimable a young man! I assure you that after a few months' training he was an admirable assistant. What do you think of the matter, Mr. Holmes?"

"I have not yet made up my mind."

"I shall indeed be indebted to you if you can throw a light where all is so dark to us. To a poor bookworm and invalid like myself such a blow is paralyzing. I seem to have lost the faculty of thought. But you are a man of action—you are a man of affairs. It is part of the everyday routine of your life. You can preserve your balance in

every emergency. We are fortunate indeed in having you at our side."

Holmes was pacing up and down one side of the room while the old professor was talking. I observed that he was smoking with extraordinary rapidity. It was evident that he shared our host's liking for the fresh Alexandrian cigarettes.

"Yes, sir, it is a crushing blow," said the old man. "That is my magnum opus—the pile of papers on the side table yonder. It is my analysis of the documents found in the Coptic monasteries of Syria and Egypt, a work which will cut deep at the very foundation of revealed religion. With my enfeebled health I do not know whether I shall ever be able to complete it, now that my assistant has been taken from me. Dear me, Mr. Holmes, why are you even a quicker smoker than I am myself?"

Holmes smiled.

"I am a connoisseur," said he, taking another cigarette from the box, his fourth, and lighting it from the stub of that which he had finished. "I will not trouble you with any lengthy cross examination, Professor Coram, since I gather that you were in bed at the time of the crime and could know nothing about it. I would only ask this: What do you imagine that this poor fellow meant by his last words, 'The professor—was she?'"

"The professor shook his head."

"Susan is a country girl," said he, "and you know the incredible stupidity of that class. I fancy that the poor fellow murmured some incoherent, delirious words and that she twisted them into this meaningless message."

"I see. You have no explanation yourself of the tragedy?"

"Possibly an accident, possibly—I only breathe it among ourselves—a suicide. Young men have their hidden troubles, some affair of the heart, perhaps, which we have never known. It is a more probable supposition than murder."

"But the eyeglass?"

"Ah, I am only a student, a man of dreams. I cannot explain the practical things of life. But still we are aware, my friend, that love gases may take strange shapes. By all means take another cigarette. It is a pleasure to see any one appreciate them so. A fan, a glove, glasses—who knows what article may be carried as a token or treasured when a man puts an end to his life? This gentleman speaks of footsteps in the grass; but, after all, it is easy to be mistaken on such a point. As to the knife, it might well be thrown far from the unfortunate man as he fell. It is possible that I speak as a child, but to me it seems that Willoughby Smith has met his

end."

"That settles this exit. Then no doubt the lady went out the way she came. I understand that this other passage leads only to the professor's room. There is no exit that way?"

"No, sir."

### Theatrical Notes

**The Kentucky's Staff.**  
Manager Thomas W. Roberts, of the Kentucky theater, today announced his staff as follows:

William Utterback, stage manager.

Russell Hughes, assistant stage manager.

Thomas Wheeler, electrician and property man.

Fred Sweater, main door keeper.

An assistant treasurer and minor employees will be named later.

The Allens (Leon and Bertie) the refined singers who are singing the song hit of the season on the theme "Scissors to Grind," never fail to become great favorites and creates much applause. The feature of their entertainment, however, is the melody of popular airs sung by Mr. Allen and then repeated by Mrs. Allen, which always creates applause, will be seen with the sterling attraction, "Lord Baltimore," at The Kentucky on Friday, August 25.

The ever interesting "On the Bridge at Midnight" is coming to The Kentucky Saturday and the famous drama with its realistic "lift" bridge and elaborate river view,

with passing steamer, will undoubtedly take its proper place among the most successful attractions here this season.

### CAUGHT IN BELT.

Painful Injury to Mr. Perry Story Today.

Mr. Perry Story, of 218 Jackson street, an employe of the Paducah Furniture factory, came near being fatally injured this morning at the plant on South Third street.

He had been working at the Langstaff company, but two weeks ago changed to the furniture factory. This morning in working about the machinery he was caught in a belt and his left arm nearly torn off. No bones were broken but one muscle and the flesh was horribly lacerated.

The injury was dressed by Dr. L. B. Griffith, and it will be many months before the arm will be well enough for use, and it may be that the broken muscle will prove a permanent injury.

If people were as ready to put in the offering as they are to pass on the sermon the church would soon be rich.—Henry F. Cope, in Chicago Tribune

## A CALL TO ARMS AROUSED THE CAMP

(Continued from First page.)

report tonight from Harrodsburg.

### Officers of the Day.

Capt. Kerriek, Company D, is officer of the day, Lieutenant Williams, Company I, senior officer of the guard, and Lieutenant Zimmerman, Company D, junior officer of the guard.

### Ladies Witness Guard Mount.

Guard mount this morning was another pretty feature. Several society ladies were present. It was conducted by Regimental Adjutant David R. Litsey under whose leadership the guard mount is making wonderful progress toward perfection.

### Paying Off the Soldiers.

Paymaster General Ayres and his assistants commenced paying off the regiment at 1:30 this afternoon. The disbursement will amount to \$3,163.44. Col. Ayres has a record of paying off a regiment in forty-five minutes. He is going after a new record with the First regiment.

Col. Hindman has reserved Wednesday afternoon for target practice for the regimental officers. They shoot with revolvers. Today Company F and Company G were at the range.

### The Governor Comes Again Wednesday.

Frankfort, Ky., Aug. 21.—Governor Beckham returned to the capital today after a visit to his family in Nelson county. The governor will leave here Wednesday for Paducah, where he goes to review the First regiment at Camp Yelzer. He will remain in camp until after August 28, for the purpose of reviewing the Third regiment, which will be in camp at that time.

### Services Yesterday—Colonel Gaines' Speech.

The service conducted at the park theater yesterday morning was conducted by Colonel Noel Gaines, inspector general. It was on religion and the obligation of the soldier to his officers and Creator. Colonel Gaines delivered a beautiful sermon. His sincerity was evident in every sentence uttered and the soldiers were deeply impressed.

Preceding him there were short talks from Colonel Hindman, Lieutenant Colonel Gregory and Captain Joseph Huffaker. They, along with the audience to officers and loyalty on the part of all. Captain Huffaker spoke for loyalty and obedience, and love and protection of America's fair women.

The service was opened with "My Old Kentucky Home," lead by Lieutenant Taylor, and closed with "Nearer My God to Thee."

In substance Colonel Gaines spoke as follows: General Haly, Colonel Hindman, and You, My Fellow Soldiers:

As I have here listened to my brother officers who have so ably spoken to you, I have been thrilled as I always am, when mingling with my comrades, I am still happier on this occasion, because we are engaged in that which is first of all things else to me, worshipping our God who alone can bless us and give us peace and happiness here on earth, and who alone can raise us to the realm above, to a life throughout all eternity. Let us drink in and believe all that our gallant officers have said. Such words of cheer and good will shall not go unheeded. Their very able plea for obedience to all orders, respect for authority, love for our state and nation, and love,

gallantry and protection for woman-kind, will not be unheard in this a camp of Kentucky's soldiers and gallant sons.

While this advice is good; while it can not be given otherwise; yet we must have a something which will enable all to take it and profit by it, because we know money does not possess the necessary thing or strength to do it. Advice without means to get the thing advised is useless. A prescription without the remedy is foolish. I verily believe more men have in past ages been lost through mere advice, through advice without the true remedy to kill the evil, than through all the devil's tricks and schemes put together. Advice to a beggar at your back door, to go and eat a big meal, without telling him where, and without giving him the thing to get the meal, would brand one as a miser and a man without love for his fellow man in distress. Advice to obey orders, to love our country, to honor and protect our fair women, and to be loyal and brave, will never be heeded, until the True Remedy is first taught, and not then, until we actually receive it. Why, what man is it that would refuse to do those things, if he knew he possessed the power to do those things, if he knew he possessed the power to do them. Kentuckians will not I know, and Americans will never I am sure. Therefore let us not stop until the Remedy is understood and received.

Feeble man can not furnish this Remedy. Some counterfeiters have tried, but all have, surely failed. If man can not, then might not the Creator of all things do it? Is it not reasonable and sensible to believe the God who created the earth and all the wonderful laws of force and motion, can do it? If we little beings have been able to make two metallic instruments (the wireless telegraph) talk through hundreds of miles of space, cannot the Creator of this man and this metal, put a fleshy instrument, a something within man, and likewise telegraph as it were, communicate with him by sending him an unseen message from the throne in heaven?

"We must believe it. We know it. For surely the Great God can do more than feeble men, whom He has created. That unseen message is wireless in form, and electrical in effect. It is the Spirit of God. It is sent only to those who humbly repent and firmly believe God is able and will do it. It sets up within you the Kingdom of God—Luke 4:43; Mark 1:14 and 15; Luke 17:20 and 21 and Rom. 14:17. Of all ages this is the grandest to live in. The great inventions of steam, electricity and telegraph are truly miraculous, and all speak the unlimited power of the Creator. All have come in this generation, and mark the most important era since the creation of this habitable earth. And all are for a grand lesson to those who receive the truth with pleasure, and who are religious towards God. I would rather have the guidance and protection of that All Powerful God, who is above me and my brother men, and my enemies, than to possess all the wealth in this earth.

A general who is guided by a man in a war balloon, from which the operator sees the movements of the enemy, has the advantage over his opponent, because one above them all informs him. A man, guided by the God of the Universe, who looks down from above, has the great advantage over all around him. He is a supremely fortunate man; he is a happy man; and he is a real man. We will have genius again in young men. Such genius as displayed by youngsters in ages ago, when these young men will turn their minds and hearts upward to find their hero

and their ideal.

You have a young man, as young as many of you, for your commander-in-chief—that distinguished and able man and statesman, Governor Beckham; and you have a younger man still as your adjutant general, that brave, able and loyal commander, and leader, General Haly. You also have that gallant and splendid soldier for your colonel whom all love to serve under, Colonel Biscoe Hindman. These your young leaders have set the pace. Look up to them and love them, and you cannot help but being loyal men and soldiers. Just as loving your father and mother makes you love your brothers and sisters; if you will love your God the Creator of all, and receive his guidance and power, you will be bound to love and honor all your brother men, whom that God has created. This then is the key, this is the Remedy.

I thank you for your splendid and earnest attention.

### Broke All Records.

Paymaster Mott Ayres this afternoon broke his world's fair record in paying off the members of the First regiment. His world's fair record was forty-five minutes. This afternoon he broke that record by paying off every man in the First regiment in forty minutes.

### ENCAMPMENT NOTES.

There is not a man in the guard house or the hospital. This is an excellent record of which Colonel Hindman is very proud. He said that reports had come to him from business men that the soldiers are conducting themselves like gentlemen down in the city and they are certainly behaving themselves at the camp. The health of the camp reflects brilliancy in his profession on Surgeon General McCormack. The officers say the sanitation of the camp could not be improved upon.

Tonight Colonel Hindman and Staff and General Haly and staff will occupy boxes at the Kentucky theater to hear ex-Gov. Bob Taylor in his lecture, "Castles in the Air." They will be guests of the Paducah Traveling Men and they will wear white uniforms.

Colonel A. T. McCormack and wife arrived this morning from Bowling Green, where the former went Saturday on business connected with the

state board of health. Nothing was done for publication.

Mrs. Noel Gaines and son, John Gaines, and Mrs. Howard Gaines, will arrive this evening from Frankfort to visit their husbands, Colonel and Major Gaines.

Colonel Hindman made an inspection in quarters yesterday morning and found everything in excellent order.

The band gave a concert at the camp last night which was enjoyed immensely by the soldiers and visiting citizens.

Colonel Ayres commenced paying the soldiers at 1:10 this afternoon. Colonel Hindman's field staff were the first to get "theirs."

Captain Wheeler, second infantry officer, who is acting adjutant of the Third battalion, was put in the hospital this afternoon as he is suffering from a bad cold in his chest.

### SAFETY LOCK

For Railroad Switches Is Invented By Paducah Young Man.

Messrs. Robert Richardson, mechanical draughtsman in the office of City Engineer L. A. Washington, and Stoddard Robertson, a brakeman employed on the I. C., have gotten a patent on a switch lock which they believe will make a fortune for them.

Mr. Robertson has been running on freight trains for some time and experienced a great deal of trouble from rusty locks on switches which he had to throw out on the road. The present switch stand has a lever which is thrown over a solid iron staple and then the padlock inserted to lock the switch. Often the lock sticks and will not work and sometimes the brakeman or tugman thinks the lock caught and leaves it. This is what caused one of the biggest wrecks in the history of the railroad a short time ago, and the young men set about to devise a lock that would act automatically and without fail.

The idea was worked out and they have been granted a patent on it and will go to work getting out a model to present to manufacturers for bids. The new invention is simple and precludes all possibilities of the switch remaining unlocked. It is a time saver and is strong and safe as the present padlock.
